### VIII. CUSTOMIZED SHIP MODELS

**Production Time:** about 2 months includes the drawings and finalizing of the production.

We provide our customers with updates at each stage of the hull, painting, and finishing processes, allowing them to give feedback and make adjustments until they are completely satisfied.

#### 1. HULL PROCESS

The ship's hull is carefully crafted and assembled from quality materials, ensuring each piece is securely fitted and accurately aligned, forming a solid foundation.

### Layers of primer, base paint, and topcoat are applied, each meticulously sprayed to create a smooth, durable surface that enhances the ship's appearance

and longevity.

### 2. PAINTING PROCESS

Final details like decorative elements and polish are added, followed by a thorough inspection to ensure quality before carefully packaging the model for delivery.
